

A large cargo ship is shown from a low angle, moving through dark water towards a bright horizon at sunset. The ship's hull is grey with a red stripe near the waterline. Numerous shipping containers in various colors (green, red, blue) are stacked high on the deck. The sky is a warm orange and yellow. Overlaid on the image is white text.

The Crew

With CrewApp

Problem

Category : Enforcement
Problem Type : Global

There is need for digitized worker revisit on small-scale fishing vessels (under 30 tonnes) to help discourage exploitation and make enforcement more manageable and consistent

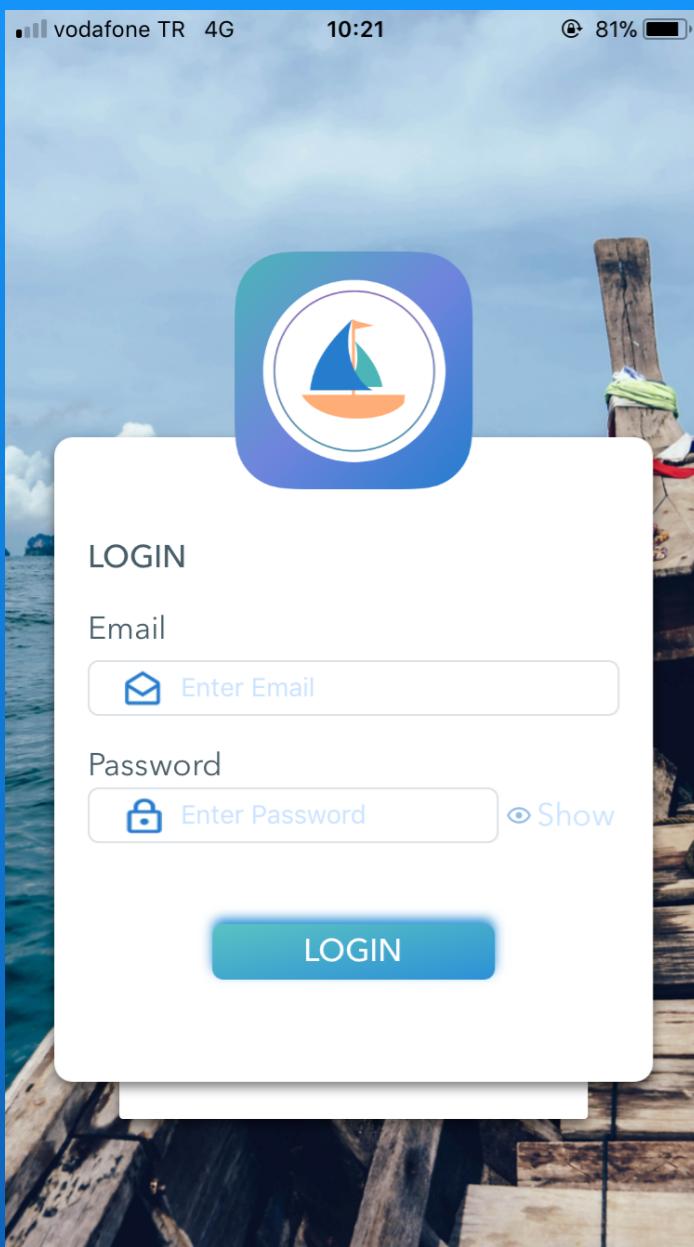

Environmental Justice Foundation,Natural Resources Defense Council

Approach

With The Crew we wanted to save time to the Shipment company and make a more reliable Environment for shipping industrie The main issue is that no one as a country want unknown citizen inside the borders so this app will cause a barrier for this kind of issues

Screens

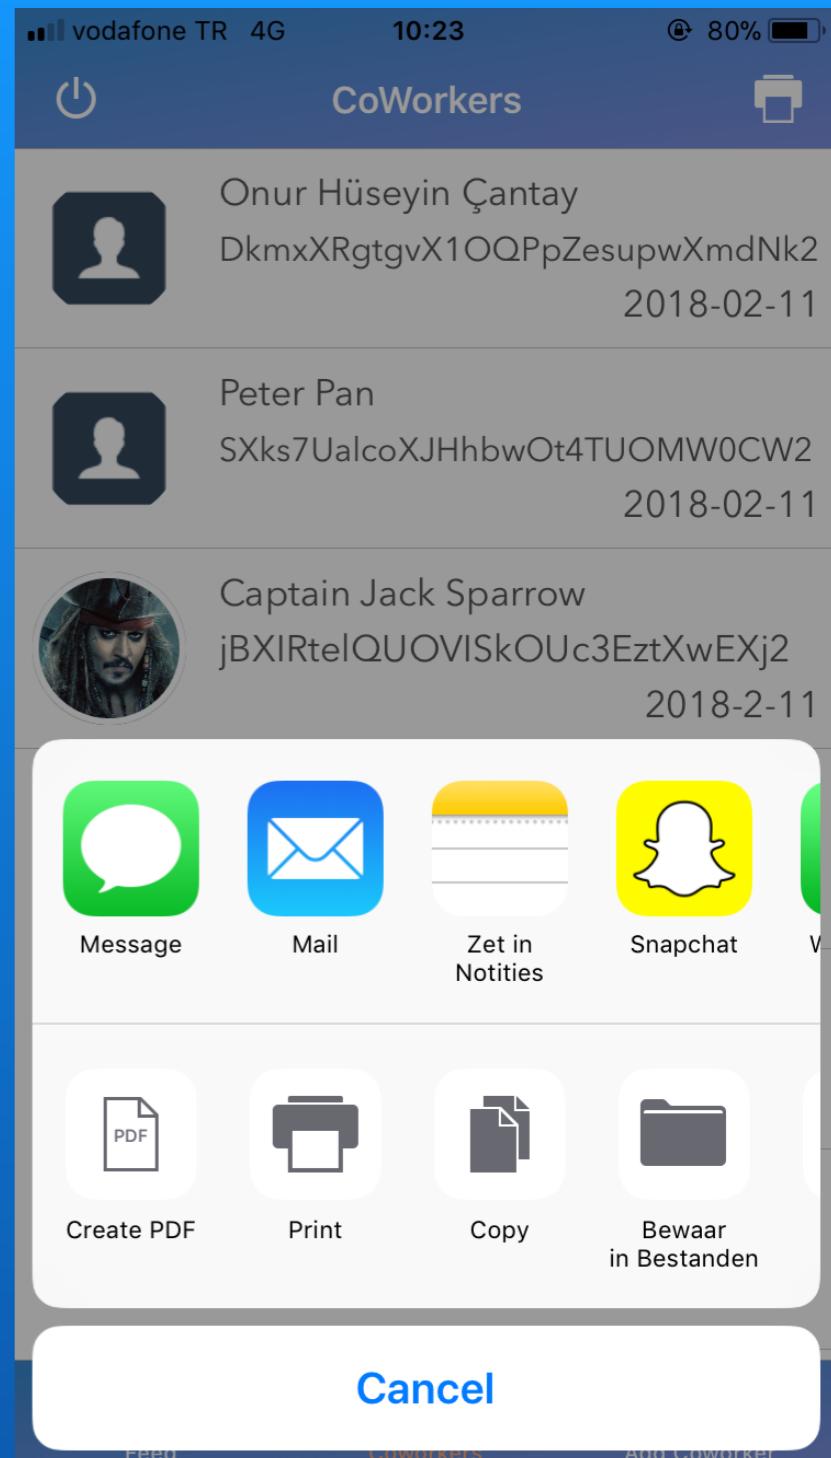

A screenshot of a mobile application's feed screen. The top bar shows the time as 10:23 and battery level as 80%. The screen is titled 'Feed'. It features a central message bubble with the text 'Have a Good Day !'. Below it is a list of four messages from a user profile picture of a person with a hat. The messages are: 'hi guys' (date: 2014-8-01), 'hi' (date: 2017-10-01), 'Pull the anchor!' (date: 2018-02-11), and 'Hello Crew !' (date: 2024-2-02). At the bottom are three navigation icons: a sailboat for 'Feed', a briefcase for 'Coworkers', and a person icon for 'Add Coworker'.

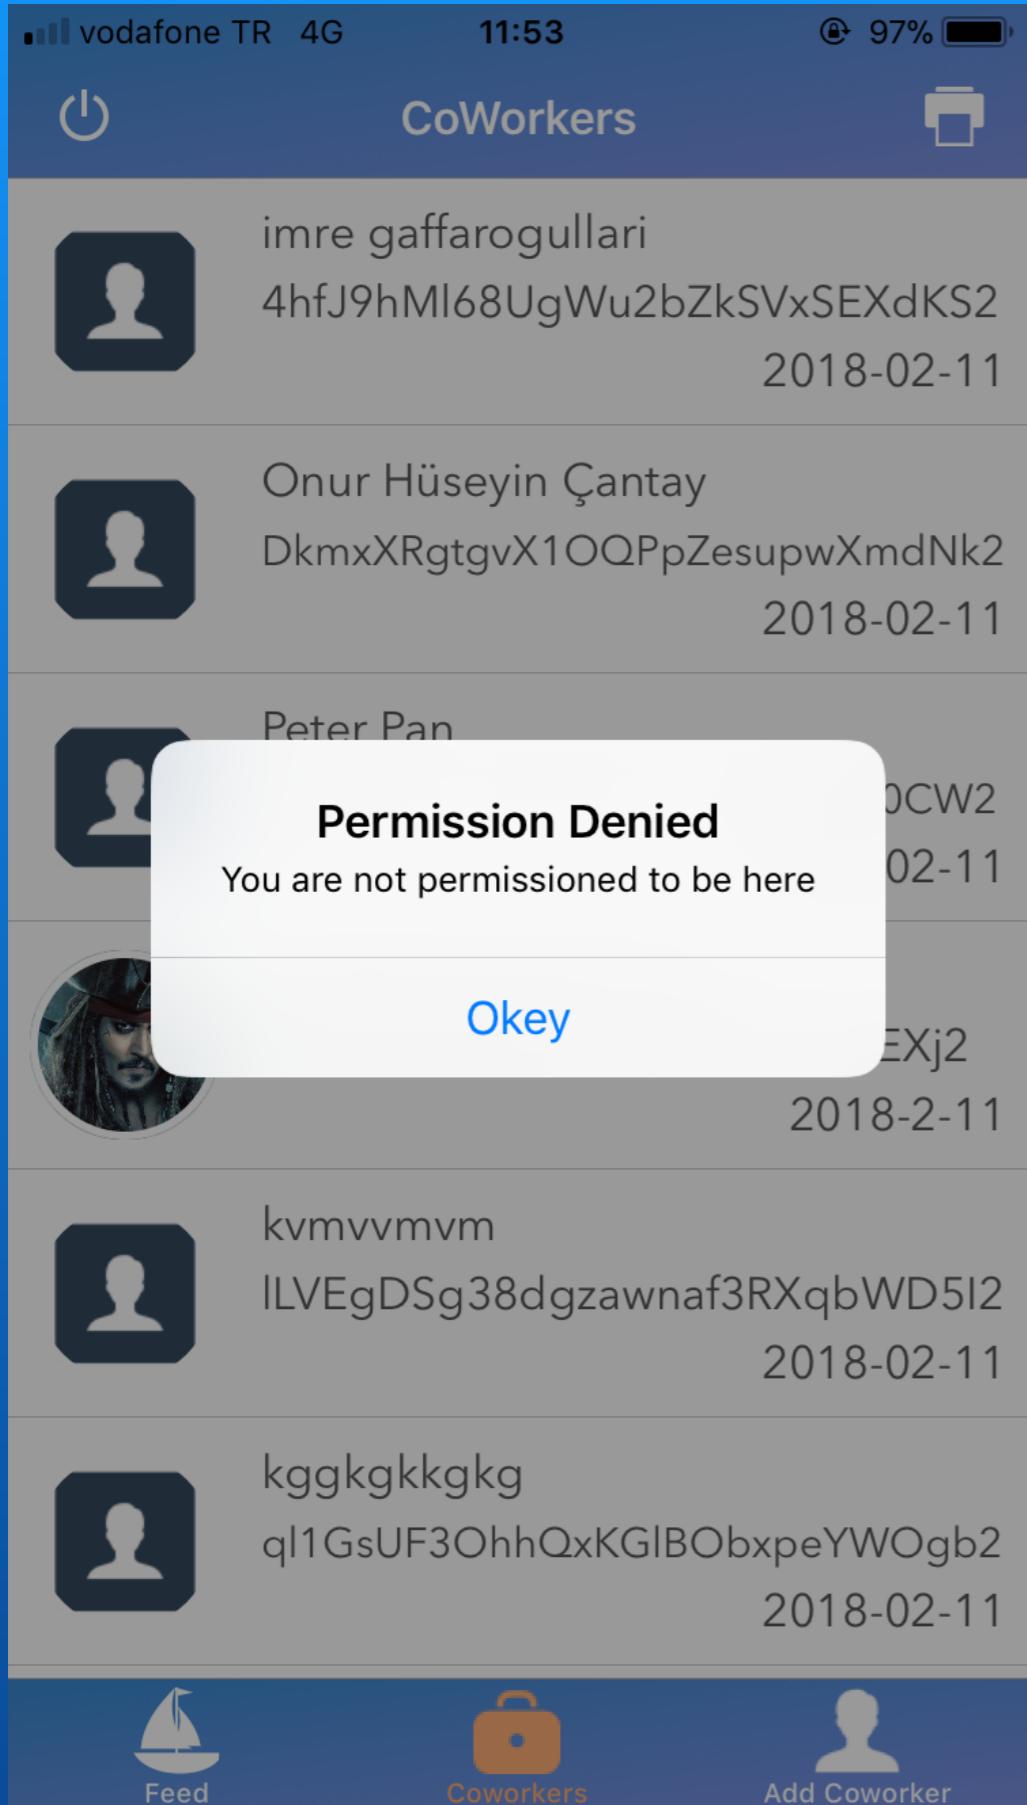

A screenshot of a mobile application's 'Add CoWorker' screen. The top bar shows the time as 10:24 and battery level as 80%. The screen has a blue header with a power button icon, the title 'Add CoWorker', and a speech bubble icon. The main area contains fields for 'Coworker's Fullname' (placeholder 'Enter Fullname'), 'Coworker's Email' (placeholder 'Enter Email'), and 'Coworker's Password' (placeholder 'Enter Password'). Below these is a 'Job Title' field with placeholder 'Enter Job Title'. A large blue 'Save CoWorker' button is at the bottom. At the very bottom are three navigation icons: a sailboat for 'Feed', a briefcase for 'Coworkers', and a person icon for 'Add Coworker'.

Pdf Output Sample

User Type Limitations

Not Everyone is provided to see the Data's of the Crew and don't have permission to see the only provided person is The Captain (“Captain Jack Sparrow 😊”)

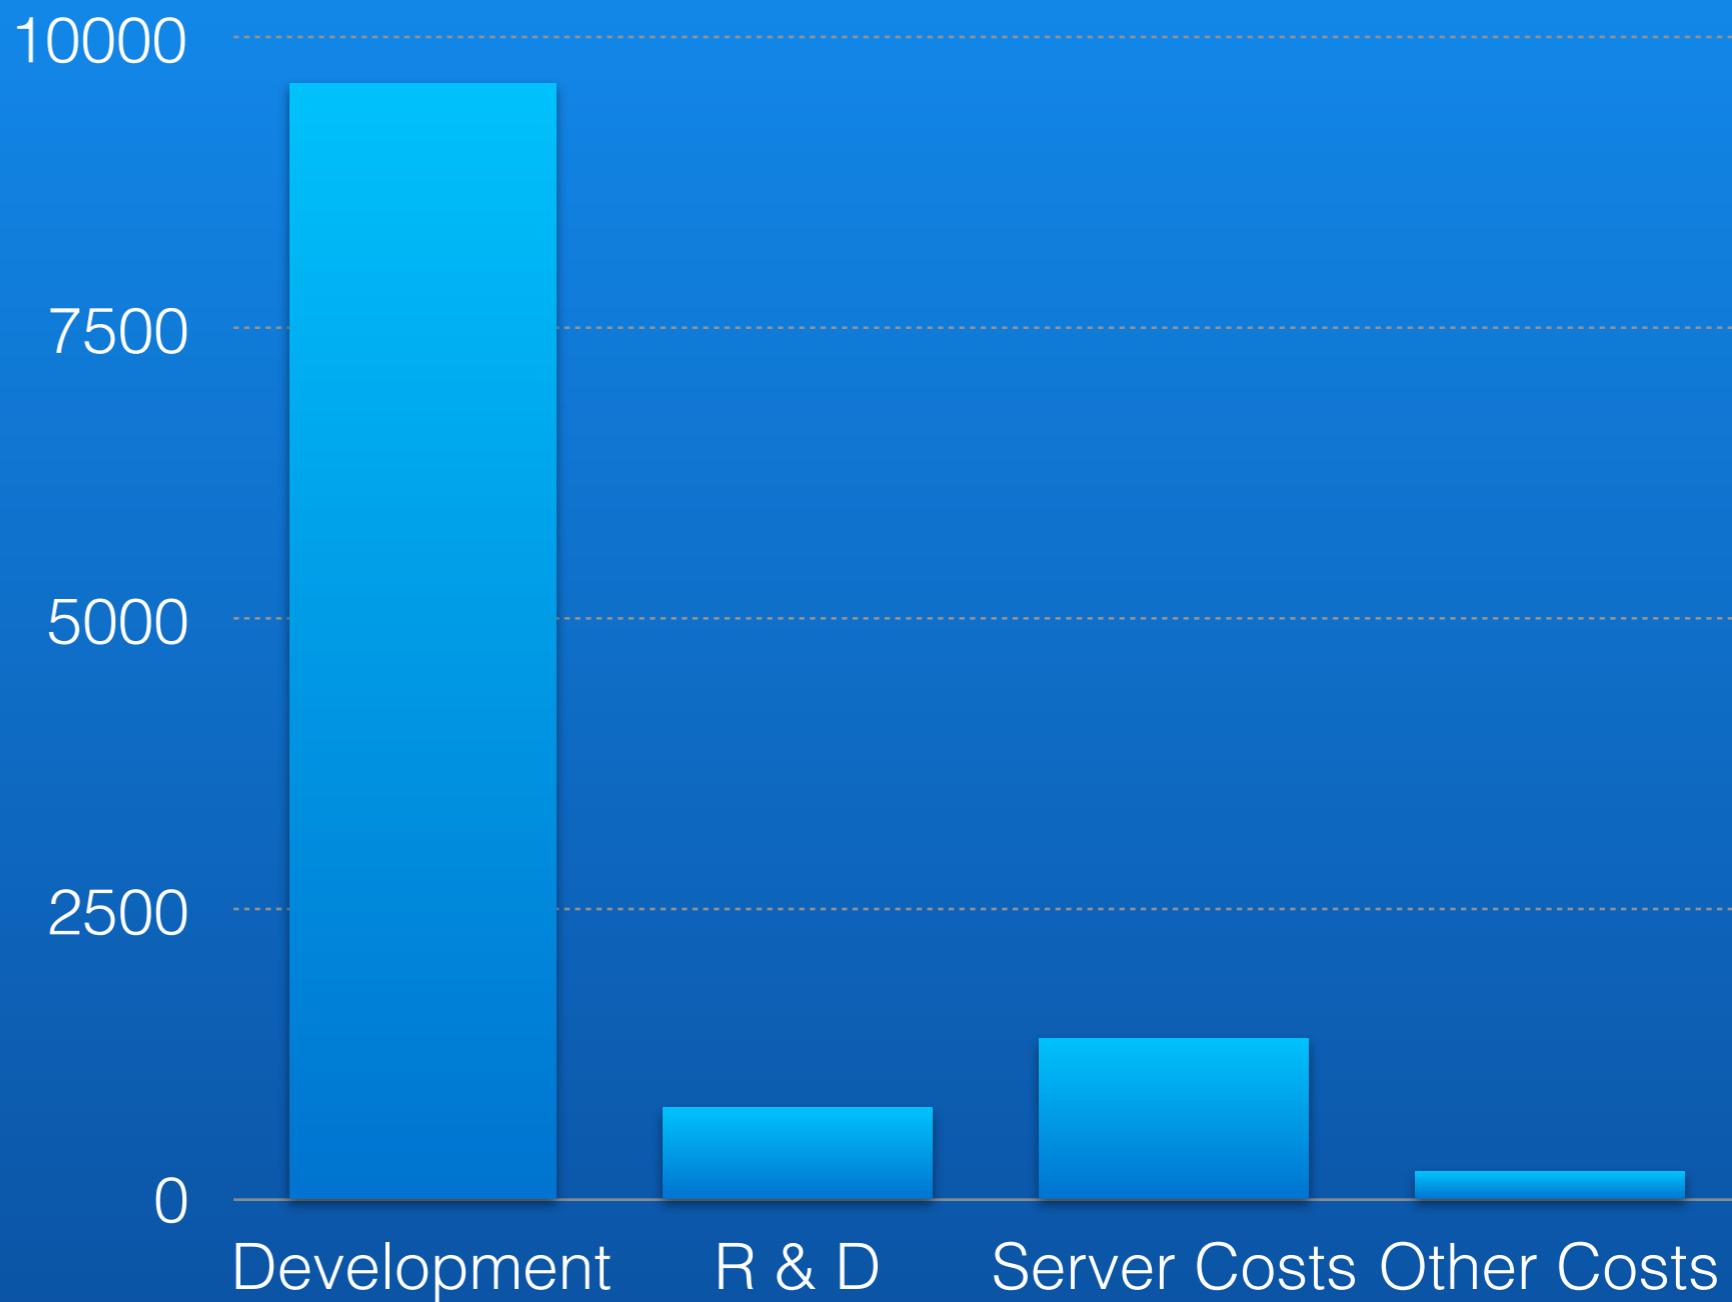

Costs And Futures

Costs And Futures

Total Cost

The World pricing standards is 60\$/hour for a regular Software Engineer so we can say that it has a cost of 9600\$ per Month And this is only for 1 person at this situation I Developed it alone but it will be huger and bigger than it is the costs and The Crew's value will be rise.

Marketing Strategy

The Strategy

The App Provides a Safe, Secure and sustainable platform and it removes the whole paper stuff from the procedures so if we can make a deal with the governments that The Crew should be on their whole Crew's phone and the Captain's Phone so they can define the ship to the government. Both side has a opportunity for wining from time and time is money 😊

The Crew
